RENO, WASHOE COUNTY, NEVADA, FRIDAY, FEBRUARY 28, 1879.

NO. 128.

A FEW FACTS

Which I Submit to the Public for Decision.

For the purpose of withdrawing persons from my store Mr. Davidson recently commenced a mean attack on me in the columns of the local papers, which I indignantly resented. When two persons fairly contradict each other the one or the other must lie. Let us see who did so in this instance:

Mr. Davidson wishes the public to believe that I have sent "all my intricate watchwork" to him personally. This is a gross misrepresentation of the facts, as I will show. I have employed Mr. W. Guggel, who does his watchwork, to do my work occasionally, once when buying goods in San Francisco, and on other occasions when time and sometimes when overworked with work, but this was at times when the gentleman was working for Mr. Davidson on commission only, and therefore not a clerk in my employ. Mr. D. received no benefit for any work so given out by me, and I hold and shall willingly exhibit to any one wishing to see them, receipts signed by said workman, in which Mr. Davidson's name is not even referred to—a most potent proof as to which of us lies. On examination of these receipts I find that I have paid Mr. Guggel from February 14th, 1878, to January 14th, 1879, just \$106 73, which represents only a small portion of my work during that time. Compare these figures with those of Mr. Davidson (\$315 25) and see who lies. Again, the book in which Mr. Guggel kept my account is his private property, and Mr. Davidson had no right whatever to examine it. As to my being neither watchmaker nor jeweler, I will leave that question to public judgment, although I may say I learned my trade in London, England, years ago, and although somewhat advanced in years, can hold my own in the former trade with any one, and the confidence my patrons have in me is a sufficient guarantee of my status as a jeweler. In conclusion I will state, should this meet the eye of Mr. Davidson, and should he feel inclined to answer this, in order to draw out another reply from me, the gentleman can rest assured that I will no more pay attention to his misrepresentations, as I feel myself far above Mr. Davidson, either as a citizen or in business circles, and in all other respects, and as for integrity, I can refer the public to the commercial world, with pride, which I challenge Mr. Davidson to do.

J. FREDRICK.

Let the Public Judge.

Editor GAZETTE: I have naturally objected to Mr. I. Frederick's unpleasant practice of misrepresenting the capacity of my establishment in the jewelry and watchmaking line. In return Mr. F. makes an exhibition of anger and forgetfulness which ought to be noted by your readers as a natural curiosity. Mr. F. challenges me to prove that he has ever failed to give satisfaction. I do not desire to prove it. I know better, indeed, since Mr. F. has had all his intricate watch work done in my store since January 18th, 1878. The old gentleman has forgotten where his work was done. I help his memory, therefore, by citing these charges made against I. Frederick on my watchmaker's books for watchwork, all of which he has paid. From January, 1878, to January, 1879, \$315 25. The books to that effect are open for inspection for anyone wishing to see them. When my friend Mr. F. says that I never did work for him he does not mean that the work was not done in my shop, merely that I did not personally perform it. As testified by my work and hard earned certificates, I am a jeweler and always keep a first-class watchmaker employed. Mr. Frederick is neither and gets violent as though I were to blame. Mr. F. is anxious to call me a liar. After showing the above figures I might perhaps retort in kind. If, however, the people will read these figures they will know how Mr. F. has been able to render satisfaction on their watches, and also see that it is entirely unnecessary for me to call the late gentleman any names.

S. N. DAVIDSON.

True as Steel.

HALL'S SAFE AND LOCK CO., San Francisco, Cal.—GENTS—One night last week (Dec. 30, 1878), some crackmen broke into my store for the purpose of robbing my Hall's Patent Fire and Burglar-proof Safe, purchased of you some time since. They were, however, apparently satisfied to give it up as a bad job. After tampering with the lock, which they found impossible to pick, their efforts were directed toward the burglar-proof box compartment, which they doubtless knew contained money and valuables. A piece of iron about as large as my hand was first cut out from one side of the safe; drills were then sent in against the burglar box, evidently to test the question—whether or not the box could be drilled and powder injected. Their drills failed to make any impression whatever upon the steel box, and these crackmen were forced to abandon their endeavor. From the artistic manner in which these cracks attacked my safe, I am satisfied that they were professional crackmen who understand their business.

Your Safe proved itself to be what you claimed for it: Fire and Burglar Proof. I cordially commend your manufacture of safe to public favor. Yours, very truly, C. O. TROTT.

A Card to the Public.

All those who think the rumor spread by a certain Jeweler in town true, that I cannot repair watches and jewelry of all grades, will find their mistake by giving me a trial. The person who circulated the above cannot do work himself and in order not to allow his neighbor to live, says it cannot be done in Reno, thereby misleading the public and compelling them to send work to larger cities. Hence, when he has some difficult work to perform, he sends it to my store to be done, says the public will no longer allow themselves to be misled, but will call at my store with the work other Jewellers cannot do, and be convinced.

W. H. DARTMOUTH.

A Card to the Public.

A. Raphael informs his patrons and the general public that he is about to visit San Francisco to secure for his spring trade, the largest and finest stock of goods suitable for the clothing of the people, that has ever been brought to Reno. He also takes this occasion to thank his many friends for their generous patronage, which he has received through a period of three years, and promises, with increased commendation and continued attention to business, to merit the patronage of the people of the city in the year 1879.

Talk is Cheap.

And so are fine clothing, boots shoes, hats and gentlemen's and boys' fine furnishings goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. I do not boast when I say that I defy competition in price in anything in my line. Besides this I have only one price. I have no professed customers. Everybody is treated alike at my establishment. My stock is the largest and most complete ever offered in any part of this State. Everything I have is new. No old, rusty and out-of-date goods can be found on my shelves. I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of my prices and examine my stock before going into those humbugging, cheap John shops, in which they draw out the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. I make a profit on everything I sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. I particularly call attention to my full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of my specialties. Remember the place. The White House, No. 18, Commercial Row. Orders from the country promptly attended to.

L. J. WILKINS.

White House, Reno.

Let it Concern All.

Who is there that can say "I am under obligations to no one?" The young man just entering business life owes to the parents who have supported him, and to the younger members of the family who have been denied luxuries to make his advancement sure. At middle age the necessity for insuring life increases with his responsibility. If in health, his first duty should be to attend to it. Unhealthy lives are not insured. Insure while you are in an insurable condition. Every day brings with it the possibility of some cause which will forever bar insurance. Let not the father of a family suffer the opportunity to pass without embracing it. He owes it to his life, to his children and to the State. To become a member of the Sonoma and Marin Mutual Beneficial Association of Petaluma costs from \$5 to \$10, according to age. Members of the Reno Agency have already been paid about \$10,000 in benefits. Over \$300,000 have been paid in benefits since its organization in 1868.

B. B. BAUM, AGENT.

Office with Dr. Snow, International Hotel.

The scarcity of diamonds, gold and silver, and the difficulties met with in securing them, is a sure indication of their value. Thus it is with a valuable medicine: Dr. Ang. Kaiser's celebrated German Pulmonic Elixir, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the sun, sweep back the ocean with a broom, or put out a prairie fire with a tear. For the cure of Throat and Lung diseases, such as Coughs, Colds, Consumption and Bronchial Affections it is unequalled. Its cures are truly magical. Ask your druggists, OBERN & SHOEMAKER, for it. The genuine bears the Prussian Coat of Arms, the fac-simile signature of Dr. Ang. Kaiser, and has his name blown on every 75-cent bottle. Trial bottle, 25 cents. autood

Try the Public.

I challenge any one to prove that I have ever failed to give satisfaction. My work speaks for itself and my reputation is too well established to be injured by any signs gratuitously spread by a business rival. I have said and still maintain that S. N. Davidson is no watchmaker. I do get my fine jewelry work done in San Francisco, but never yet have failed to give satisfaction both in price and workmanship, and the work is better than can be done in Reno. I can prove that on more than one occasion I have had jobs brought to my store to be remade that have been botched by S. N. Davidson. And I further state that if he says that he ever did a dollar's work for me he is a liar.

THE WISE MAN OF THE EAST.

Rev. Jos. Cook is still engaged in straightening the universe. His settlement of the Chinese question was only an appetizer. He finds no difficulty in putting at rest forever questions which have given hard work to the scientist. In a lecture on Alaska he says the gulf stream is the effect of trade winds. Good enough. He says the Alaska winters do not differ from those of Washington, D. C., but the summers are cooler. He wants money for the poor missionaries. He says:

"What is the moral condition of Alaska? Its religious wants were not neglected by Russia; how have they been met by the United States? The Russian Greek Church had a chapel, several schools, a seminary, seven missionary districts, seven priests and sixteen deacons in Alaska. The American church finds it hard to raise the pittance needed to maintain two or three teachers there at this hour. Not long ago, out of a school managed by an American lady in Alaska, a white man captured a girl, and when the mother of the girl expressed her willingness to sell her for twenty blankets the teacher interfered, but the parents insisted on removing the pupil from school, and dragged her down to the river and told her she must take her place in the canoe. The girl drew back and said: 'You may kill me. I shall not leave my teacher.' And you leave that teacher in want of food and shelter, and thus leave hundreds of these pupils—these number nearly hundreds now—be drawn back into paganism, and drawn down from paganism into something yet more horrible! I read of a chief of forty-five years old coming from the interior the other day to school, and saying: 'Teach me the English language that I may read the Bible. You teach these tribes nearer the coast, but my people in the interior are dark, dark, and in a little time they will all die, and they will all go down, down, down, and the strong savage burst into tears.'"

THE TIMBER AND WATER QUESTION.
It's very important to the citizens of the regions bordering on the Truckee river that some extensive plan of irrigation be put into operation which will utilize the waters which now pour down its channel. The timber is being cut off over such large tracts of country and the second growth is so slow in coming that the snow crop runs off in one flood. This state of affairs will go from bad to worse until the spring rise comes to be looked for with fear and trembling by many who live on low land. There would be very hard floods now if the dam at Tahoe City were removed. A system of irrigation which included the storing of large bodies of water in the mountains would obviate all danger. Dams thrown across the tributaries of the river and lake at suitable places would not only prevent floods, but they would preserve a vast amount of wealth, in the shape of irrigating water. The banks of snow which are now protected by the pine and fir forests will before many years lie open to the sun and then the river will be high one month and dry six during the spring and summer. These direful effects can never be entirely obviated but much of their destroying force might be taken away by saving up water from the spring floods in every place large or small, far or near, where it can be done at all cheaply. We are not inclined to hope for anything from the laws which are invoked so freely in the aid of all the ill which flesh is heir to. The regions involved are too distant and too high to be planted with a new growth and tended with care sufficient to ensure the success of the work. The only source of appeal is to man's acquisitive bump. If it can be proven that there is money in it the work will sooner or later go forward.

The Humboldt Irrigation and Development Company are nearing the completion of their long and arduous labors. Their canal will have a stream of water flowing into the Lovelocks meadows within thirty days, fifteen feet wide and two deep. They have nearly 7,000 acres of their own land and will use part of the water on it, the balance will sell. The upper half of the ditch has been very expensive. Their dam is a good one, and has solid rock banks at each end. A tunnel a quarter of a mile long is timbered throughout. A lively town will build up at Lovelocks station.

The Young Men's Republican club, of San Francisco, declares that the vote of the Chinese bill would be a calamity.

STILL THEY COME.

We thought we had them all but we hadn't. The report of the adjutant general never reached our table until this morning. We cannot say where the blame for this delay lies but we demand a committee of investigation. See to it, senators, that the people are protected. The report before us is a very able one and will take high rank in all military libraries. It contains a full report of the Duck Valley war including the flank movement in Shoo Fly creek. With great difficulty and danger the commander "procured the bill for supplies and transportation," amounting to \$1,407 37. I take pleasure in saying that I believe them to be just and equitable and should be paid. Signed J. W. ADAMS, Adjutant Genl., N. M. N. M. either means Nevada Mulligans or Muldoons or else never mind.

EDITORIAL NOTES.

P. E. Studebaker, of South Bend, Indiana, is on the coast looking after the interests of his vast wagon factory. He manufactured over 18,000 wheeled vehicles last year, and will turn out over 20,000 this year. His wagons go to every state and territory, to Mexico, Australia, Germany, and even South Africa.

The Chicago Daily News says the Suro tunnel was accidentally flooded last Monday by a stream of water five feet deep. The scissor editor is an adopted brother-in-law of James E. Anderson.

The eastern papers are going for Bogardus, the shot-gun artist. We judge by what they say he went in and couldn't hit a barn if he went inside and shut the door.

Last is here and the pious printer is trying to find something to deny himself without falling to pieces.

THE STREET-CAR CONDUCTOR.

(Cincinnati Saturday Night.)
It is amusing to observe a new street car conductor and see how he tries to imitate his prototype of the railroad. It is only the man fresh in the business who does this, however; the veteran hand at the bell-punch is through with all such pretenses. The new hand opens the door and calls off the names of the streets as though they were stations. He steps off the car to help a lady aboard and then waves his hand to the engineer—driver, rather—to go ahead. He has a way of standing on the bottom step and holding on by the handles as he swings himself out and looks anxiously ahead to see if there are any cattle on the track. When he goes through the car to take up tickets he waves his body from side to side and tenses up and down on his heels just as a railroad conductor is compelled to do when the train is moving at full speed over a particularly rough piece of road. And if a passenger asks a question he gives a short answer in a rough tone of voice, as if the necessity of collecting fare from numerous car loads of people in a brief space of time would not permit of any waste of words. If he happens to have a dollar bill about him he carries it folded between the fingers of his left hand, so as to facilitate the business of making change. He feels the dignity of his position too much to allow any familiarity on the part of the driver, and instantly frowns down the attempt of a passenger to enter into conversation with him. But we are all inclined to imitate those who occupy stations superior to our own. We presume the editor of the London Times puts on as many airs as though he were conducting our Saturday Night.

SHIPWRECK AND LOSS OF LIFE.

BARNEGAT, N. J., Feb. 26.—The schooner David H. Tolk came ashore this afternoon south of here, and the sea being very heavy the vessel commenced breaking up rapidly. Her crew of eleven, including a woman and child, took refuge in the rigging, and the crew of life saving station number 19 attempted during the forenoon to board the vessel in a surfboat, but were continually driven back by the heavy sea, and they then, with the assistance of the crew of number 18, rigged up the breeches buoy, in which one man and the child were brought ashore, but in such an exhausted condition that no further particulars could be obtained from them. Subsequently the crew of number 17 arrived at the wreck, and four of the vessel's crew were landed in a dying condition. Two, while being drawn ashore in the breeches buoy, were drowned, the line breaking. The captain's wife died in the rigging. One man was washed overboard and the rest, if not dead, are supposed to be in a hopeless state still on board.
Later—Captain Sawyer and his wife and three seamen of the schooner David H. Tolk, ashore here, were drowned last night.

DAMAGE BY FLOODS.

PARIS, Feb. 27.—The storms continue in the south of France, where hundreds of people are thrown on public charity by the destruction or inundation of houses. In Spain the tempest lasted four days, and there was much damage and loss of life. Various villages and farms in Navarra and Asturias were destroyed. A bark, name unknown, was wrecked at Corunna, and thirty persons drowned. The steamer Memphis, from Liverpool for New Orleans, ashore at the entrance of the harbor of Corunna, has been abandoned. She is considered a complete wreck.

Tracing a Suspected Murder Case.
(S. F. Bulletin, 26th.)

Captain Stone and Detective Jehu have been engaged both yesterday and to day in seeking information concerning the mysterious row-boat bearing the fresh stains of blood, that was found Monday morning on the West Berkeley shore by some workmen employed at Judson & Shepard's chemical works near by. The result of the detectives' labors has been to make the affair even more mysterious and to make the supposition that the little craft was made the scene of the foul deed almost conclusive. It has been ascertained that the boat belonged to one John French, an unmarried man, and a boatman by occupation, who resided at No. 417 Drumm street. Between 6 and 7 o'clock on Sunday evening French was seen to embark in his boat at the Nallejo street wharf in company with another man. He rowed out and when seen last by the persons on shore the boat was headed for the Berkeley shore. Who the person is that was French's companion in the boat has not yet been ascertained. They were seen by some of the men on a man-of-war lying in the stream, but no information as to what occurred between them can be learned. The boat, however, as has been stated was covered with blood. When found on the following morning, and an examination of the beach where it was discovered showed the footprints on the shore, induce the belief among the detectives that one of the two men may have murdered the other and thrown his body into the bay.

Discouraged.
NEW YORK, Feb. 27.—The recent excursionists from this city and Chicago to Mexico have nearly all returned, and the prevailing feeling seems one of disappointment at the result of the visit. Besides the published utterances of the party in Chicago, those here see little hope of extending trade under the present tariff, and in the face of opposition and jealousy of the Mexicans to American railroads and other enterprises. A meeting will be held at Cooper Institute this evening by the friends of the movement pushing American commerce in Mexico. An address is promised by the Mexican consul and other Mexican officials.

Wisconsin Mines.
CHICAGO, Feb. 27.—A Tribune Madison, Wisconsin, special says: Much excitement exists here over the announcement that rich silver and gold deposits have been discovered in Marinette county, Michigan, near Marquette, Wisconsin. The Hon. Ike Stevenson arrived here to-night and reports that out of three specimens of iron ore sent to Chicago for analysis one yielded \$16 in gold and silver per ton, another \$24 and another \$29 per ton. There have been over 75,000 tons of iron ore shipped from the Emmet mine during the past season, which undoubtedly contained millions of dollars in gold and silver.

Idaho's New Citizens.
NEW YORK, Feb. 27.—A Washington correspondent says: Four or five hundred negroes from South Carolina are here and will start for Idaho in three weeks to locate on land and work on the railroad from Boise City. Transportation is provided and they understand well that they will be taken care of till they can stand alone through the efforts of Senator Bruce and other congressmen. This is the first of a large number to follow and establish colonies, and Senator Bruce thinks it an excellent beginning of negro independence and manly support.

Good Prospects for an Extra Session.
NEW YORK, February 27.—Thurman said to-day that he was fully convinced that an extra session of congress was inevitable. Windom, chairman of the committee on appropriations, declares that the outlook for finishing up the appropriation bills is extremely discouraging. Thus far, but five out of twelve of the regular appropriation bills have been passed. There is likely also to be stubborn resistance in the matter of marshals and troops at elections.

Fighting the Chinese Bill.

NEW YORK, Feb. 27.—The World and Tribune lead the newspaper opposition to the anti-Chinese bill in the vigor and space given in their assaults. The Tribune this morning has over three columns on the subject. Among the points made by the World are the following: Put the annual Chinese immigration into San Francisco at the highest figure ever claimed, and you will leave it far short of the reinforcements annually poured into our metropolitan army of despair and degradation from all parts of the country and the world. After describing the loathsome condition of tenement houses and children born and flung into the street, motherless from the cradle, and friendless to the grave, it says: "Paint the Chinese of San Francisco black as you will, you cannot bring them to a darker complexion than this. But New York does not petition congress to limit immigration." Referring to the contract system under which the Chinese are alleged to be imported, the World asks why San Francisco has not enforced the treaty provision against it.

The Tribune says: "While New York is busy denouncing the proscriptive spirit of the Pacific coast might not something be done to give these men the chance of education which would not be denied them if they were in China or Africa, instead of in civilized New York?"

Railroad Bridge Gives Way.
WILMINGTON, Illinois, Feb. 27th.—A span 110 feet long of the iron railroad bridge of the Chicago and Altan road here gave way this morning, as an empty coal train was passing over, and precipitated three coal cars into the channel of the Yankakee river, a distance of over thirty feet. Other sections of the bridge, which is of the Howe truss pattern, were uninjured. The total loss is several thousand dollars.

Bostonians Coming West.
NEW YORK, Feb. 27.—The merchants' club of Boston, embracing many leading men, have for some time contemplated a trip to California, and will definitely decide at a meeting to-night. It will be thoroughly representative of the highest commercial class of Boston.

Two Respected Citizens Murdered.
IUKA, Miss., February 26.—Major A. N. Hutchins and Thomas McNitt, highly respected citizens, were murdered yesterday afternoon, presumably for \$1,700, which they had taken from the express office during the day, and which the murderers secured.

It is stated that arrangements are about completed for the pooling of rates between the Union Pacific and Colorado Central railroads. It is estimated that the Union Pacific has agreed to appropriate two million dollars to complete the Colorado Central from Georgetown, the present terminus, to Leadville.

The mind has a certain vegetative power, which cannot be wholly idle. If it is not laid out and cultivated into a beautiful garden it will itself shoot up weeds or flowers of a wild growth.

All between the cradle and the coffin is uncertain.

CROSS-EYED LOGIC.

The "Journal's" Way of Drawing a Distinction Without a Difference.

The Journal of this morning contains an explanation of the causes that led to the suit of the Reno Savings Bank against Washoe county, to recover jurors' fees in the case of Ricord vs. the Central Pacific R. R. Co. The GAZETTE has no fault to find with the Journal's statement of the facts, but it most decidedly objects to the Journal's deductions therefrom. The Journal says Gen. Clarke made a statement in court that the fees would be paid, and then it further says that Gen. Clarke promised to pay them. Now there may be a slight discrepancy between the words of Gen. Clarke and the statements of the GAZETTE, but there is no material difference. When Gen. Clarke informed the court that the fees would be paid, did he not give the court to understand that he would see that the fees were paid, or that he would pay them? The duties of an attorney have been sufficiently defined for Gen. Clarke to understand them. He ought to know that when an attorney makes a pledge for a client, that that attorney is held to the fulfillment of that pledge. Gen. Clarke has practiced law long enough to know what an attorney is expected to do for a client, and has associated with gentlemen sufficiently to know what the word honor means, and ought to know that honor demands the fulfillment of pledges. An attorney is also held to a strict accountability for any promises made in behalf of his client. Gen. Clarke has allowed himself to be placed in a very bad light in this matter, and his friends are deepening the color of the off-hued reputation by ill-considered efforts to defend him.

The Journal goes on to say that the jurors ought to have their fees, but that neither Gen. Clarke nor the county ought to pay them. That sort of logic is irresistible in its way. Now, if the county ought not to pay them, Mr. Ricord ought, and if he does not or cannot, then Gen. Clarke, who promised that they would be paid, ought to pay them.

The Reno Savings Bank having bought the claims is entitled to receive the money as a matter of course; but the question is, who ought to pay it? The Journal (who is the defender of Gen. Clarke) says not the county. The best thing Gen. Clarke can do, is to get counsel Clarke to pay R. M. Clarke, attorney for the Reno Savings Bank, the jurors' fees (less attorney's fees) and settle the matter.

Bought the Water Works.

The Evans brothers have bought the Reno Water Works, and have instituted some improvements which will be of great benefit to the town. It will take about 90 days to perfect the improvements contemplated. The new proprietors, so one of them informed a GAZETTE reporter, intend to build a large reservoir back of the Episcopal Seminary, which will give a fall of 120 feet. Water will be brought from the High and ditch to supply the reservoir. It is the intention of the new proprietors to make the water works a first-class institution, and to accomplish that end, no pains nor expense will be spared. They believe in Reno, and also believe the water works can be made a paying investment as well as a great convenience. This is an improvement long needed in Reno, and one that will be sensibly felt by all of our citizens. It is in the way of a public enterprise, and is another step for Reno on the road to metropolitan greatness.

Increased Mail Facilities.

From Dr. Patterson's GAZETTE reporter learned that the petitions for changing the tri-weekly mail route from Reno to Willow Ranch, to a daily, are already in the hands of Congressman Wren, and speedy action is expected thereon. Quick and frequent mail communication always encourages traffic between two given points, and in the present case Reno will not only be benefited, but our northern neighbors also.

A Large Industry.

J. Mayberry, of Mayberry's wood camp, is in town, and was interviewed by a GAZETTE reporter about his operations in the timber line. Mr. Mayberry has about three hundred men employed in getting out wood for the business companies. He will get out about 6000 cords this season for the mills, and probably more. The sawmills will be started up some time in the middle of March if the weather permits.

Reception.

Mr. and Mrs. Sanders gave an elegant reception to their numerous friends last evening. About forty persons were present. Music, games, social converse, and a handsome collation were the features of the occasion. Some toothsome fragments of the good cheer reached our sanctum in the general jollification, which were devoured amid many good wishes for the future happiness and prosperity of the donors.

Sewing Machines.

S. N. Davidson to-day received a large invoice of Singer sewing machines from the manufactory. The Singer is one of the best machines manufactured and parties desirous of purchasing one should call and examine Mr. Davidson's stock.

Gold Fish.

Osborne & Shoemaker have received a lot of gold fish from San Francisco, suitable for fountains, etc. They are beautiful ornaments, and should be had by everybody.

THE WAY IT'S DONE.

The Way Opium is prepared for Smoking, and How it is Smoked.

Very few people, except those who are addicted to the practice, know how opium is smoked. For the enlightenment of those who are in the dark in this regard, the GAZETTE vouchsafes the following: The opium that the Chinese smoke is not the pure drug, but a black, tarry, substance that is only about 80 per cent. opium. It is prepared in this way and put up in small, tin boxes at Singapore, in India, especially for the Chinese trade. As these boxes only contain five or six ounces of opium, and cost from \$6 to \$9, according to quality, it may be seen that it is a very expensive, as well as ruinous, habit. The pipe used to smoke the vile stuff in is a curious contrivance. The stem is a piece of bamboo, with the joints burned out, from two to three feet in length, and from one to two inches in diameter. Near one end is a hole in the side of the stem, into which a brass socket is inserted. Into this socket the bowl is fixed. The bowl is of clay and looks very much like a Chinese man's hat. It is hollow, and has a small orifice around which the opium is placed to be smoked. To smoke opium it must be first cooked or roasted until it becomes hard. To do this, a small quantity of the tar-like substance is taken on the end of a steel needle, about as long and about the size of a large knitting needle, and held over a small oil lamp. As the opium cooks it is rolled over the smooth surface of the earthen bowl, and then alternately held over the lamp until it has roasted thoroughly and rolled into the proper shape for smoking. When it has thus been prepared, the opium is stuck on the pipe around the little orifice spoken of. Then it is held close to the flame of the spirit lamp, while the smoker draws the vapor of the burning opium through the stem into his lungs. There is a residence left in the hollow chamber of the bowl called "second" opium. This vile stuff is reboiled by the Chinamen, and sold to poor Chinamen, who are unable to buy the genuine article. The effect of smoking is not, as is generally supposed to put the smoker immediately to sleep. It only deadens the sensibilities, numbs his brains and conscience, and makes him feel a curious lightness.

THE BOSS STOVE.

Stoves as a Generator of Tall Stories.

Coming down on the cars from Virginia the other morning, they got to talking about stoves, and Boah said: "Well I don't want to brag; but I think I've got the boss stove. So far this winter I haven't burned but three tons of coal, and the stove has kept three rooms warm."

"You must have a poor stove," remarked Thompson. "I haven't burned but two tons of coal yet, and my stove heats parlor, dining-room, two bedrooms and a hall."

"Well when you come to stoves," quietly remarked Johnnie Quinn, "I claim to have the best coal stove in Reno, I have burned but a ton and a half of coal so far, and we have to keep all the dampers shut and a back door open all the time." Some men looked out of the windows and some down at the floor, and no one seemed to doubt the assertion: At length a heavy sigh was heard from the rear end of the car, and J. N. Jaquish arose and said:

"Gentlemen, there goes a fire alarm. I have no doubt my residence is at this moment in flames, and the lives of my family in peril. It is all owing to my coal stove. I set up the stove last November, and put in one peck of coal. Every room has been so hot ever since that the base boards have warped off, and we finally had to move down into the basement. This morning the water in all the pipes in the house was boiling, the shingles on the roof hot, and I just hired four Chinamen to form a snow bank around the stove. To late, alas! too late. That stove has accomplished its fiendish purpose, and I no longer have a home. It may not, however, be too late to save the baby. Good bye, gentlemen."

Going to Leave Us.

Lewis Duck, for many years a resident of Reno, will shortly leave with his family for the golden state, where he intends locating for the future. Mr. Duck has been an honorable, upright citizen during all the years of his residence in Reno, and has universally endeared himself to all who know him. The family will be generally missed.

Personal.

Ex-secretary of state, J. D. Minor, passed through with his family last night on his way to California, where he will make his future home. Mr. Minor has filled his office for eight years with honor to himself and credit to the state, and leaves behind him many warm friends to regret his departure.

Just Received.

Osborne & Shoemaker have a large quantity of clover, red top, garden, field and flower seeds for sale just received from D. M. Ferry, Detroit, Michigan. Farmers and gardeners, who wish to adorn their grounds or raise the best qualities of grass, had better apply early.

For Sale.

At the Reno Nursery, Reno, Nev., 100,000 FRUIT AND ORNAMENTAL TREES. I will sell hereafter by the hundred for cash, at the Nursery for one-half the usual price. GEORGE W. COOPER, Proprietor.

JOTTINGS.

— Very little snow on the Sierras.

— Virginia had a \$3000 blaze yesterday.

— Last night's "blow" knocked things quiet to-day.

— The opium dens have been "pulled"—in a hour.

— Peach trees are in bloom at Franktown—so is Reno's nose.

— The seven wise men of the state senate—those who voted for the Asylum bill.

— Wadsworth has a sensation. There's a woman in the case—and another fellow.

— Mr. Isaacs, of the firm of Grey & Isaacs, returned from San Francisco yesterday morning.

— There was a report in circulation last night that a raid was intended on the vags, but it proved to be untrue.

— The Camstock papers are calling for the impeachment of Chief McCourt. McCourt has been kidnapping a Chinaman.

— Nicholas McKernan, the man who was yesterday committed to the insane asylum, was taken below last night by Pierce Evans.

— Steve Gage has been lecturing legislators on the railroad questions. Stephen did his lecturing in private until the railroad bill was defeated.

— An assessment of 50 cents per share has been levied on the stock of the North Side Irrigation Ditch Co.—the penalty of using too much water.

— An eastern paper says: "Proposals for marriage in Nevada are written on postal cards, and the answer comes by mail. 'Come on with your preacher.'"

— By glancing over our columns an advertisement telling people where to procure fresh eggs will be seen. Those wanting them will apply to the miller at the State Flouring Mills.

— A weekly mail route has been established between Wadsworth and Grantsville, and J. W. Parker, of Atchison, Kan., has been awarded the contract for carrying it.

— Arthur McEwen calls our Eagle Valley neighbor "Honesty's Graveyard." It is noticeable that Arthur's obituary has not appeared in the Carson papers yet.

The Carson Episcopalian Fair. The gross receipts of the Episcopal Fair at Carson were \$2,393. Of this \$1,650 was net profit. This clears off the church debts and leaves enough to purchase a new bell, with which to replace the old cracked affair which has so long survived its usefulness in the church edifice.

Funeral. The funeral of the little daughter of Mr. and Mrs. Hayden took place this evening at 3 o'clock. A large number of sympathizing friends followed the little one to her last resting place.

To the Public. The undersigned would respectfully inform the public that they have entered into a partnership for carrying on the Menzies Tailors' business on Virginia street, in the house formerly used as the Justice office. We would also call attention to the fact that we have a complete and varied stock of the finest and most fashionable dress goods ever brought into the Reno market. SIMMOND'S NABOB WHISKEY. Consumers are referred to the following extract from the report of an eminent Public Analyst: This is a pure barley and wheat spirit, remarkable in fragrant others, which impart a delicate aroma, at the same time greatly increasing its value as a digestive stimulant. The solid residue contains a large amount of tannin, derived from storing in oak casks, which imparts to the old whiskey one of its valuable individual qualities. The amount of the residue proves the whiskey to be free from the excessive coloring and sweetening so generally used in adulterating. In fact, in two words, it is the PUREST WHISKY, and will not only supply a public want, now that whiskies are so generally adulterated, but will be of the greatest value to the physician in those numerous cases where pure whiskies are the most useful of all medicines. Housekeepers, Attention.
There is a man in our town,
He keeps a grocery store,
On Virginia street he can be found
By the customers around his door.
He keeps such nice things to eat,
The inner man to please,
Such as bacon, hams, butter, eggs and Beef
Pickles, Preserves and cheese.
Among his stock of varied goods
You'll find the choicest treat,
Stop the man that drives the wagon,
And order what you please.

sued out of the District Court of the Second
Judicial District of the State of Nevada, in
and for the county of Washoe, on the
6th day of February, A. D. 1897, and to me di-
rected and delivered for a judgment rendered in
said District Court, on the 1st day of Octo-
ber, A. D. 1896, and in favor of Pierre Lum-
bert, plaintiff, and against "Nevada Quick-
silver Mining Company," defendant, for the sum
of thirty-three thousand, seven hundred and
sixty dollars (\$33,760), with interest thereon at
the rate of ten per cent. per annum until paid,
together with costs and disbursements,
amounting to sixty-three and 5/100 dollars
(\$63.05), all in U. S. gold coin. I have, on the
6th day of February, A. D. 1897, levied upon
the following described personal property of the
above named defendant, to-wit:
One saw-bench and circular saw.
